SUMMARY

AI & Data Science graduate with experience in Java, Spring Boot, Python, machine learning, and data analysis. Skilled in building full-stack applications, REST APIs, and data-driven solutions with a strong focus on backend development and cloud deployment.

SKILLS

Languages: Java, Python, JavaScript, SQL
Backend: Spring Boot, REST APIs
Frontend: HTML, CSS, JavaScript
Databases: PostgreSQL
Machine Learning: Pandas, NumPy, Matplotlib, Scikit-learn, XGBoost
Tools: Git, CI/CD, Railway, Neon

PROJECTS

- MiniKintsugi – Transaction Risk Assessment Platform** : Live Demo Java, Spring Boot, PostgreSQL
- Designed and deployed a cloud-hosted transaction monitoring platform using Spring Boot and PostgreSQL.
 - Developed 5+ RESTful APIs supporting transaction creation, approval, rejection, deletion, and retrieval workflows.
 - Implemented an automated risk-scoring engine to classify transactions as **APPROVED** or **UNDER REVIEW**.
 - Built a responsive frontend using HTML, CSS, JavaScript, and Fetch API integration.
 - Deployed the application on Railway with Neon PostgreSQL using environment-based configuration and CI/CD workflows.
- NYC Taxi Fare Prediction** : Github Link Python, XGBoost
- Processed and analyzed 500K+ NYC taxi trip records for fare prediction.
 - Performed feature engineering and model tuning to improve predictive performance.
 - Achieved an RMSE of 4.2 using XGBoost.
- Personalized Cancer Diagnosis** : Github Link Python, Machine Learning
- Applied text preprocessing, TF-IDF vectorization, and Logistic Regression for cancer classification.
 - Conducted exploratory data analysis and addressed class imbalance to improve model performance.

EXPERIENCE

- Software Engineer Trainee** Nov 2024 – Jan 2025
Vembu Technologies
- Explored enterprise-level codebases, development workflows, and debugging practices.
 - Identified software defects, reported issues, and gained exposure to software architecture concepts.
- Machine Learning Intern** Jun 2023 – Jul 2023
Datayaan Solutions Pvt Ltd
- Worked with Oil & Gas datasets using Python and Excel.
 - Implemented and evaluated SVM and Random Forest models using RMSE and R^2 metrics.

EDUCATION

B.Tech. in Artificial Intelligence and Data Science 2020 – 2024
B.S. Abdur Rahman Crescent Institute of Science and Technology
CGPA: 7.6 / 10.0
